<p>TOPIC: Classroom management skills</p> <p>We discussed effective methodology for managing and leading class dynamics. We discussed power of solid preparation coupled with several incentive structures that are clear to the students. This firstly creates dynamic where students are less likely to talk about distractions as they're more engaged by a lesson that's engaging. Secondly they know that they have the bonus of doing well and then gaining incentives as they succeed in the classroom.</p> <p>Overall, teacher has been working on this and will continue to further develop this and has seen its results already in greater student involvement and engagement.</p>
